Student Release Form

Graduate Administration Program

I grant the program director permission to inform the Superintendent of Schools and the School Principal where I am currently teaching of my interest in pursuing a leadership role and certification as a building level administrator. The purpose of this notification is to ask them to provide you with additional leadership opportunities that may arise in your district/school over the course of time that it takes you to complete your degree. Authentic, on-the-job training is essential to the development of the competencies necessary to be an exceptional principal. Opportunities such as chairing a committee, participating in a NEASC visit, organizing professional development, assisting with a variety of leadership tasks, etc. will be invaluable to your growth as a leader.
